`_variable.scss`

- Just a file.
- Modularize our SCSS.
- NOT CSS generated from partials.
- Partial are used with the **@use rule** NOT @import(Deprecated).

Example:

```
// _variable.scss
$primary-colour: #4783ae ;
$font-size-small: 2rem;

// main.scss
@@use 'variable.scss' as var;

.hello {
  font-size: var.$font-size-small;
  background-color: var.$primary-colour;
}
```
